

## TECHNICAL DATA SHEET

# CN1968

## Aliphatic Urethane Methacrylate Oligomer

### DESCRIPTION

Low viscosity urethane methacrylate oligomer showing good balance of tensile strength and elongation. Low color and non-yellowing performance.

No Intentionally Added Tin

### SHELF LIFE

Store in the original, closed container in a dry, cool (<45°C) and well-ventilated place. Keep away from frost and heat (open flames, hot surfaces and sources of ignition) sources. Typical shelf-life is 6 months from delivery date for unopened containers. In cases where product sampling is required to carry out incoming quality tests, shelf-life should be maintained beyond opening, provided that it is tightly closed immediately after and that contamination with foreign bodies is avoided. Inhibitors have been added to enhance storage stability. They require the presence of air in the container in order to improve their efficiency. Keep stabilizer levels constant to avoid explosive polymerization. An air space is required above the liquid in all containers

### STORAGE

See SDS for Storage Considerations

### HEALTH AND SAFETY

See SDS for Health & Safety Considerations

### LIQUID PROPERTIES

Appearance	Clear liquid
Functionality	2
Density at 25°C (g/mL)	1.0631
Color (Pt/Co or APHA)	<50

### CURED PROPERTIES

Elongation at break (%)	86
Tg (°C), by DSC	75

### PRODUCT PERFORMANCE

Shrinkage  
Flexibility  
Wood Adhesion  
ABS/PC Adhesion  
PVC/PS Adhesion  
Weatherability  
PE/PET/PP/PMMA Adhesion  
Metal Adhesion  
Chemical Resistance

### SUGGESTED APPLICATIONS

Adhesives & sealants  
Nail varnishes
