

## TECHNICAL DATA SHEET

# CN970A60

Aromatic Urethane Acrylate blended with TPGDA (SR306)

### DESCRIPTION

CN970A60 is an aromatic polyether based urethane triacrylate oligomer blended with 40% SR306, tripropylene glycol diacrylate. It is a hard oligomer.

### SHELF LIFE

Store in the original, closed container in a dry, cool (<45°C) and well-ventilated place. Keep away from frost and heat (open flames, hot surfaces and sources of ignition) sources. Typical shelf-life is 6 months from delivery date for unopened containers. In cases where product sampling is required to carry out incoming quality tests, shelf-life should be maintained beyond opening, provided that it is tightly closed immediately after and that contamination with foreign bodies is avoided. Inhibitors have been added to enhance storage stability. They require the presence of air in the container in order to improve their efficiency. Keep stabilizer levels constant to avoid explosive polymerization. An air space is required above the liquid in all containers
