

TECHNICAL DATA SHEET

SARBIO 5201

1,10-Decanediol Diacrylate

DESCRIPTION

SARBIO® 5201 is an acrylate monomer that exhibits low odor and high reactivity. It is useful in applications, such as coatings and digital and screen inks, and where weathering resistance is needed.

USDA Certified Biobased 64%

SHelf Life

Store in the original, closed container in a dry, cool (<45°C) and well-ventilated place. Keep away from frost and heat (open flames, hot surfaces and sources of ignition) sources. Typical shelf-life is 6 months from delivery date for unopened containers. In cases where product sampling is required to carry out incoming quality tests, shelf-life should be maintained beyond opening, provided that it is tightly closed immediately after and that contamination with foreign bodies is avoided.

Inhibitors have been added to enhance storage stability. They require the presence of air in the container in order to improve their efficiency. Keep stabilizer levels constant to avoid explosive polymerization. An air space is required above the liquid in all containers
